I have the honour to state that an estimate for Rs14000/- for the construction of a Town Hall at Honnali was sanctioned by Government in their order No L 3626-7/L.B 131 A 21-4 dated 16th November 1922 The building is almost completed as per sanction -ed plans and estimate with the exception of two items provided in the estimate viz (1) the construction of drains around the building and (2) putting up of the wooden screen in the Hall At the two meetings of the members of the local Town Hall Committee held on 22-10-1927 and 25-11-1927 it was resolved that in the opinion of the Committee members the wooden screen for the Hall and the drain round the building were quite necessary items of work and had therefore to be dropped , that the Town Hall was in great need of suitable furniture and that as there was no other amount with which this could be furnished,the amount that could be saved by the omission of the above mentioned two items of work should be utilised for purchasing furniture The Executive Engineer Shimoga Division,who was consulted in the matter,points out that in case the Savings contemplated are to be utilised for buying the required furniture, Orders have to be obtained and that he is strictly prohibited,under the provision of para 88 of the P W D Accounts Code from making or permitting any deviations from the sanctioned design in the course of execution unless under special authority or in the case of the emergency when the change is forthwith reported to the Chief Engineer I request therefore that you will be so good as to obtain sanction of Government for the deviation proposed by the Committee members, from the sanctioned estimate as required by the provisions of P W D Account Code

2 The favour of an early communication is requested as the building is complete and has to be taken charge of urgently
